**85%
TO THE
HOST**

INFLUENCERS

- Automatic membership management
- Global access for all audiences
- Set your own price

USERS

- 1-Click order with crypto
- Access to all content
- Fraud prevention

HOW DOES IT WORK?

Influencers can create their own channel and promote their content and charge (x) SKM for users to subscribe. 85% goes to the host and 5% get burned.

For example: A Telegram Influencer has 50,000 subscribers in his channel. They share high quality information everyday. If they move to Ally, they could charge \$5 USD per month per subscriber. The Influencer can get \$250,000 USD per month in SKM.
